Overview

Ace Machine and Fabrication is a turn key machine and fabrication shop that has been in business for over forty years in the middle Tennessee area. Our 50,000 square feet of manufacturing space allows us to produce large precise parts and those that require simple forming or punching. Our engineers and skilled technicians are committed to producing the highest quality products on time for our customers. We are ISO 9001 certified as well as being small business certified by the metropolitan government of Nashville and Davidson County.

Capabilities

Ace Machine and Fabrication combines state of the art manufacturing with the most current advances in machinery and production. Our plant contains the following equipment and processes:

- **Fabrication (Wysong Shear, Press Brake, Amada Turret Punching)**
- **Machining (Lathe and Milling)**
- **Welding (Mig, Tig and Resistance Spot Welding)**
- **Laser Cutting (2 Lasers)**
- **Finishing (Back stand Grinder and Dedicated Deburring Center)**
- **Painting (Powder Coat Painting)**
- **Final Assembly, Shipping and Delivery (Hinges, Locks, and Devices)**

Services

Ace Machine maintains a strong relationship with its suppliers to keep a constant flow of raw material to our plant. This allows Ace to meet the critical meet the demands and expectations of our customers even on short notice or rush jobs. Our engineers can help you design or enhance your part to exceed your manufacturing expectations or those of your customers. We can partner with you to reduce your overall manufacturing cost and increase your profitability by tailoring the right solution that fits your needs.
